

Charge for Today's Meeting

Growing Michigan Together Council
Workgroup Meeting Five

JTP: The Executive Order Charge

Jobs, Talent, and People Workgroup will:

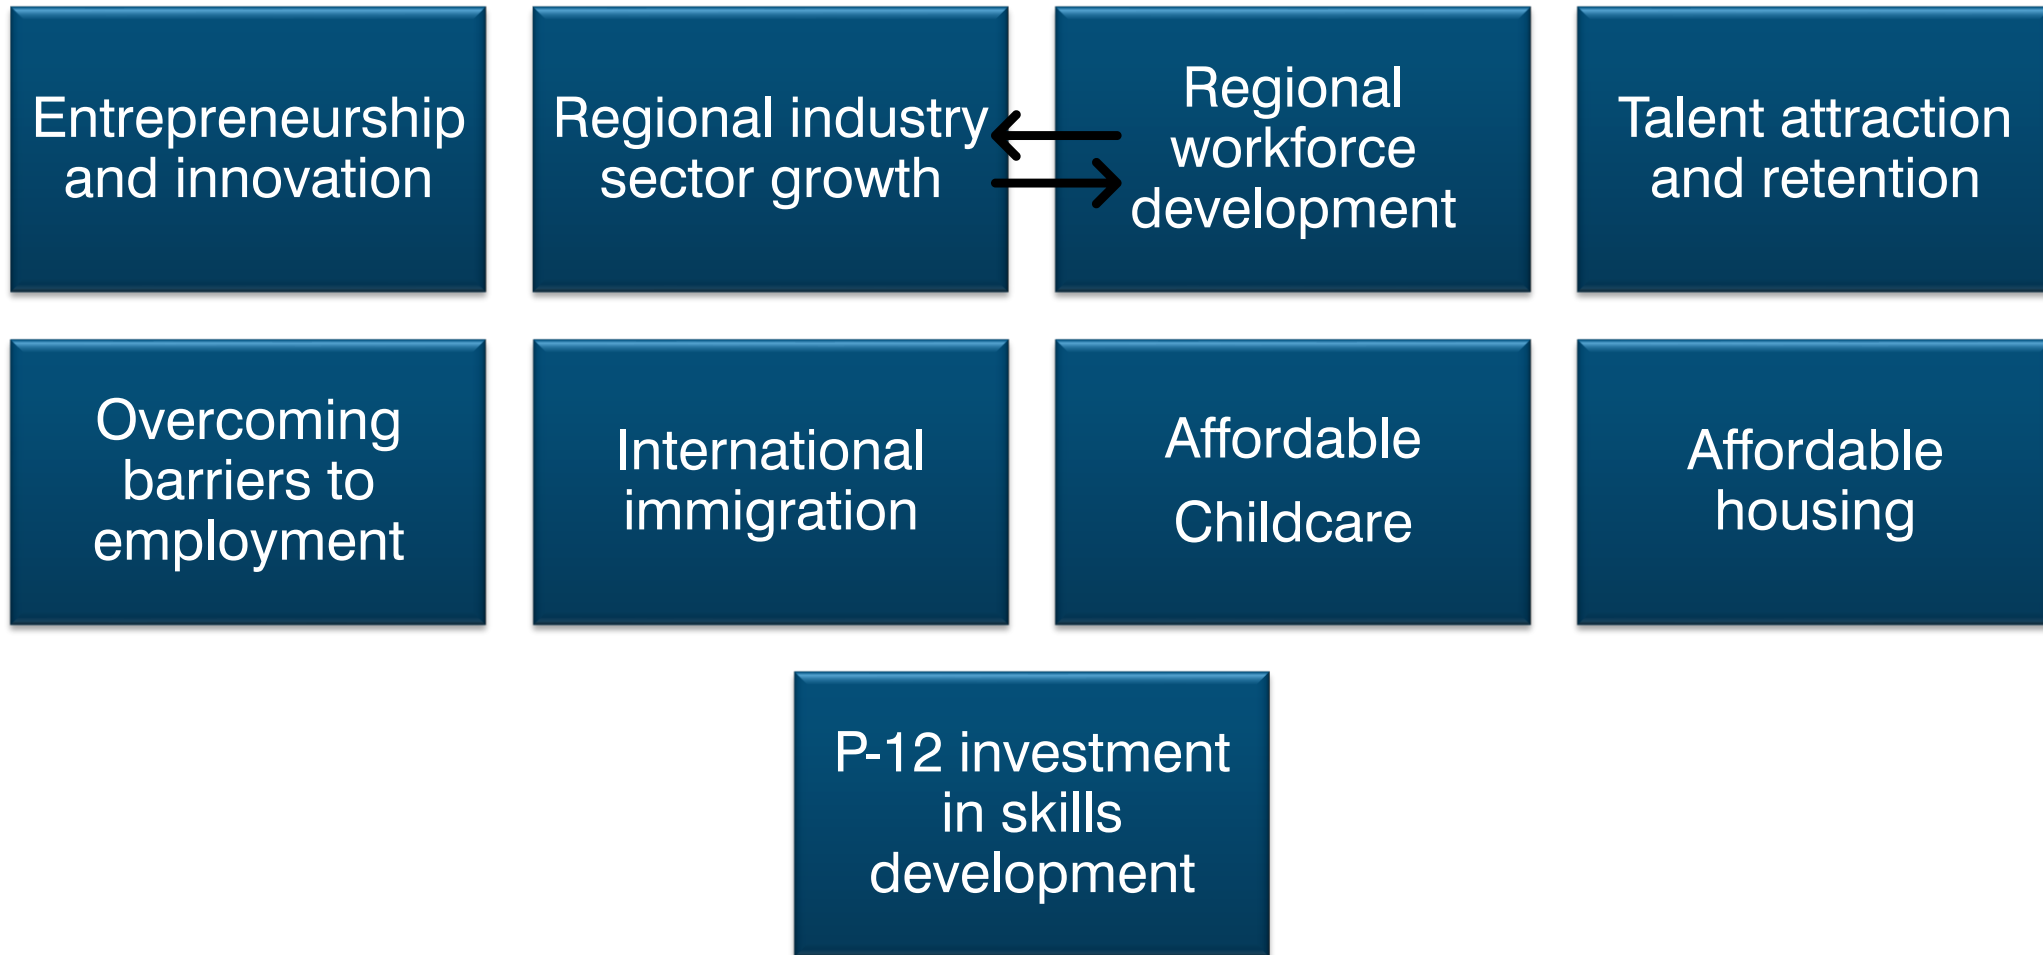

Propose a specific population goal for 2050 that is based on comprehensive economic development strategies that create safe, vibrant communities and lead to great opportunities and upward economic mobility for every Michigander.

JTP: The Final Report

Report	The report must contain policy recommendations to:
Equity	Drive concrete, equitable investments that reflect the state's growth in communities of color,
Migration	Ensure domestic migration to Michigan (a combination of retaining our young talent and attracting talent to come to Michigan), as well as international migration to Michigan (creating additional pathways for new Americans),
Natural Resources and Climate	Give direction on how to leverage Michigan's rich natural resources and expected climate migration from other states, and
Workforce Shortages	Identify potential future workforce shortages and create targeted programs to attract the talent to fill these gaps.

JTP Draft Policy Recommendation Buckets

Roadmap for Today

- Recommendation gap identification
- Facilitated discussion of draft recommendations
 - Refinement of existing
 - Combining concepts/buckets where it makes sense
 - Discussion of ideas moving to other workgroups
 - Additional policy concepts
- Wrap-up to set priorities for next meeting: Monday, 9/25

Other Updates

The Citizens Research Council will still provide best practices for increasing Michigan's attractiveness outside of this meeting.

Polling is currently being conducted that may assist with our continued refinement and prioritization.

LEO and MEDC will support funding discussion.

Your Co-Chairs are working with other chairs to make connections where there is overlap.

**What have we not covered in
our recommendation
discussions that we should?**

Draft Recommendation Refinement Questions

How should we refine this recommendation to maximize its impact and effectiveness?

What are the opportunities and challenges associated with approving and implementing this recommendation?

How can we ensure this recommendation improves outcomes in an equitable way?
